Dear Parents/Carers,

Transition Videos

Staff have been busy creating 'transition videos' for families to watch together at home. These videos will introduce you to your child's class teacher and teaching assistants and tell you all the information your child will want to know for starting school in their new classroom and year group. We know that sharing small but important details will help ease worries and make the first day back in September as smooth as possible for you all. Please note that we are currently planning the finer details for returning to school in September and so some of the entry routes into school, filmed on the videos, may need to change but we will of course share these details with you before we return.

You will see that some teachers have created videos as a year group and others as a class. These will be uploaded to Seesaw and are also available by clicking on the links below.

Covid-19 has meant we have had to work in new, creative ways but has shown us ways to further improve our communication with families. These videos are very much needed after an unsettling year but will also be a feature in future years. We hope you enjoy watching these now and again at the end of the summer before we return to school.

Yours sincerely,

Claire Jones
